

# AVO FRUIT

By: **ULU FOOD**  
GROUP LLC

"We believe in doing things with love. **For 16 years we have nurtured tradition and excellence in avocado cultivation**, with the passion and respect that our land deserves. For us, it is not just about a fruit, but about sharing its authenticity, its flavor, and its virtues with the world."

committed to  
**Quality,**

**Trust**

**About Us**

## The Avocado

**Avocado is a unique fruit:** it combines nutrients, flavor, and benefits that are not found together in any other natural food. Its composition makes it an exceptional ally for energy, health, and daily well-being.

### Heart healthy fats

Its monounsaturated fatty acids help reduce bad cholesterol and protect cardiovascular health.

### Fiber that aids digestion

It contributes to better intestinal function, greater satiety, and a more balanced metabolism.

### Essential vitamins and antioxidants

It provides vitamins E, C, K, and B, as well as antioxidant compounds that support the immune system and fight oxidative stress.

### Potassium and essential minerals

It contains more potassium than the banana, helping to regulate blood pressure and muscle function.
